Anchor Tenants' Sales Remain Healthy Coupled with Growth Y-O-Y

Sales **3.6%** y-o-y¹

Contributing **9.5%** of rental² **Ahold Delhaize**: U.S. comparable sales excluding gasoline grew **3.6%** y-o-y in 2Q 2023. The sales growth was mainly driven by growth in customer loyalty and online sales. Ahold's local brands, Food Lion and Hannaford in particular, have continue to see strong market share gain as both brands further elevate their omnichannel capabilities¹

Sales **6.4%** y-o-y¹

Contributing **4.2%** of rental² **Walmart**: U.S. comparable sales excluding fuel grew **6.4%** y-o-y in 2Q 2024, driven by strength in its omnichannel model across segments. Walmart raises guidance for FY2024 to reflect Q2 upside, confidence in continued business momentum and ongoing customer response to its value proposition¹

Sales **1.1%** y-o-y¹

Contributing **10.0%** of rental² **BJ Wholesale Club Holdings**: U.S. comparable sales, excluding gasoline sales, increased 1.1% y-o-y in 2Q 2023. The strong performance in the second quarter is driven by continued gains in membership, traffic, market share and great value that BJ's Holding provide to their members everyday¹

People & Community

- Engage with local communities and contribute to UHREIT's target of **100 hours of staff** volunteerism in FY2023
- In June 2023, our employees volunteered at Food from the Heart, a non-profit centralized coordinating organization that collects food donations from donors and redistributes them to their beneficiaries

- To maintain an average of 20 hours of trainings per employee of the manager
- Foster a Conducive Workplace environment that promotes high levels of employees' engagement

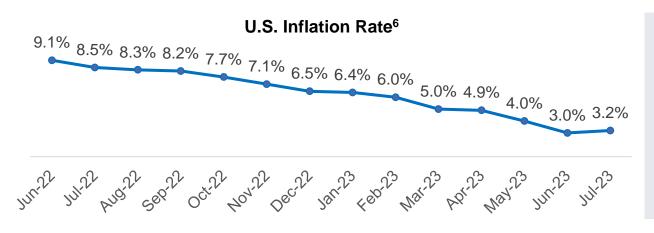

Maintain Strong Track Record for safety

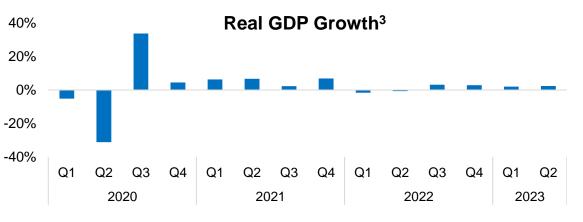

Outlook U.S. Economy Remains Resilient

2023 GDP Forecast: +1.0%1

- U.S. real GDP increased at an annual rate of 2.4% in 2Q 2023, increasing from a 2% growth rate in 1Q 2023 and well above the 1.8% forecasted by economists²
- July 2023 Unemployment Rate: 3.5%⁴
- Total nonfarm payroll employment increased by 187,000 in July 2023⁴
- U.S. jobs market shows sign of gradual cooling, with June 2023 job opening edging modestly down to 9.6 million⁵, the lowest level seen in more than two years

Inflation Rate in July 2023: +3.2%6

- U.S. economy achieves stronger than expected expansion in 2Q 2023 despite continuation of Fed's rate rising campaign.
- Inflation rate has since moderated to 3.2%⁶ in July 2023 after reaching a peak of 9.1%⁶ in June 2022. To achieve the targeted inflation goal of 2%, the Fed approved its 11th interest hike by another 25 basis point in July 2023, bringing Fed Funds rate to a target range of 5.25% - 5.5%⁷

Outlook U.S. Consumer Confidence Hits Two-Year High

U.S. consumer confidence index increased to 117.0 in July, above economist expectations³

- U.S. consumer confidence increased to a two-year high in July 2023 amid a persistently tight labor market and receding inflation, bolstering the
 economy's prospects in the near term. However, the economy is not out of the woods and consumers continued to report their intention to spend
 less on discretionary services including travel, recreation and gambling³
- Consumers are also changing how they shop, mostly downshifting their spending behavior and hunting for bargains. Middle-income consumers, representing the majority of the population at 50.2%, are inclined to reduce their spending on discretionary items and focus on necessity goods and services. Consumers may also consider shopping for lower-priced alternatives or taking advantage of sales and discounts more often⁴
- July 2023 y-o-y discretionary sales² decreased by 0.6% as consumers are displaying more caution on non-essential spending

Omnichannel Retailing – The Path to Value Creation

- The rise of "Phygital" retail: Phygital is an immediate, interactive, and immersive shopping experience combining the best of in-store and online shopping. Customers leapt to digital commerce platforms during the pandemic. Now, people are shopping in traditional bricks-andmortar stores again, but they want to keep the perks from their digital experiences, too. That's what gives rise to the 'phygital' retail trend. For example, customers can browse online, add items to their carts, then scan and add items to their cart from the store. This creates a seamless shopping journey across channels¹
- Aldi continues growth strategy with 120 stores in 2023: The brick-and-mortar expansion is part of a larger omnichannel experience designed to make grocery shopping as convenient and enjoyable as possible, no matter how customers prefer to shop, whether in-store, through curbside pickup or via delivery through shop.ALDI.us or through ecommerce partners DoorDash and Instacart²

New Innovations and Partnerships to Enhance Distribution

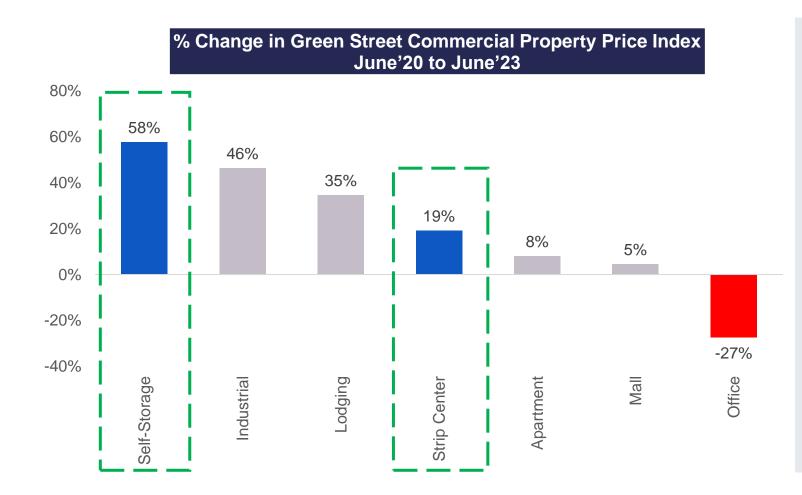

- Often enabled by technological advancements, retailers are constantly on the search for innovative sales strategies that boost their digital business and take full advantage of their stores¹
- DoorDash continues to add brands to its delivery program. Over the last year, partnerships for delivery of goods to the consumer have been formed with Dick's Sporting Goods, Big Lots, Party City and Lush Cosmetics²
- BJ's Wholesale Club's use of in-store employees in the same-day delivery process is improving its e-commerce customers' experience. The club retailer created "a last mile delivery model," in which BJ's employees fulfill customer's orders in-store and then hand them off to a third-party courier³
- Opportunities to facilitate easy customer returns is continuing to be adopted by physical stores. Staples, an office products store is now permitting consumers to return goods purchased on Amazon at any Staples location. Target also launched curbside returns for its products in 2023⁴

Resiliency in Self-Storage and Strip Center Property Values

- Green Street Commercial Property Price Index is a time series of unleveraged U.S. commercial property values that captures the prices at which commercial real estate transactions are currently being negotiated and contracted
- With remote work arrangement here to stay postpandemic, structural demand for offices is declining and continues to weigh heavily on the sector valuation. Commercial property price for the office sector has declined by 27% since June 2020
- On the other hand, the Strip Center sector has benefitted from the remote work arrangement as the additional flexibility has increased demand for the good and services offered in Strip Centers ranging from grocery shopping to dining. Strip Center sector values have increased 19% since June 2020
- Similarly, the Self-Storage sector has also benefitted from the work from home dynamic with values increasing by 58% since June 2020

Grocery & Necessity Retail Sector Continues to Demonstrate Resiliency

Foyoroble	 Demand for space at power centers is bound to increase as big-box retailers execute their expansion plans. Off-price retailers including TJX Companies, Burlington, and Ross recently announced they plan to open 150, 90, and 75 new stores, respectively¹ 	Strip Center Quarterly Leasing Volume ² (Square Footage in Millions)
Favorable Retailer Expansion Trends	 Retailers' store opening plans have not been deterred by the clouded macroeconomic environment or bankruptcies. There are several retailers with signed leases expected to commence paying rent in the coming months² 	■ New Leases ■ Renewals
	 There has been limited new retail development given the elevated construction costs and supply barriers which have kept new strip center supply at a minimum, particularly in dense, affluent suburbs³ 	$\begin{array}{cccccccccccccccccccccccccccccccccccc$
• Tenant Sales Growth Moderates	 Retail sales have moderated after two years of remarkable growth; consumers have become more price conscious² 	10 9 9 8 9 8 10 9 10 8 g
	 Sales from quick service restaurants and retailers in the health & beauty segments stand out positively while comparable sales have declined for retailers in the home furniture, electronics and apparel categories² 	6
• Transaction Volume .	 Transaction activity remains subdued, but there are still many interested bidders for smaller sized strip center deals² 	3 4 4 4 <mark>3 2</mark> 3 3 4 4 4 4 3 4 3 4 3
	 One large scale transaction is Regency REIT's \$1.2 billion acquisition of Urstadt Biddle Properties announced in mid-May 2023² 	10192019301940191020202020202020202020202020202020202

Storage Demand Drivers Have Normalized with a Return Of Seasonality

Fundamentals Moderating	 Storage fundamentals are softening from the peak of 2021¹ While move-in rents should improve through the peak leasing period, existing customer rate increases are expected to drive revenue growth in 2023¹ 	
Demand Drivers	 The seasonal lull during the winter months, coupled with lower overall mobility in the US in light of economic concerns and less work from-home (WFH) flexibility, has resulted in decelerating storage rental rates¹ 	
New Construction	 Rising economic concerns, particularly around bank lending requirements, may make it harder for developers to get construction loans¹ High material costs (i.e., concrete, steel, labor), access to equipment, and permitting delays continues to mute the start of new projects¹ 	
Self-Storage Deal Volume	 Self Storage transaction activity was \$1.3 billion in 2Q 2023 and represented a 70% decline over the prior year²
